Partner quick help guide

Use this document if you need clarification or guidance on any of the questions and content required on the Hiring Cloud partner form.

For more specific information on how to optimize your page content and image assets, take a look at the partner content guide we've put together.

greenhouse

Part 1

Integration general information

Product name

This should be the name of the integration product. It may be different from your company name.

Contact email for notifications

If you have signed our mutual referral agreement to receive demo requests from the Hiring Cloud, please specify the email address that should receive any requests (can be a direct contact or alias). If you have not signed a mutual referral agreement but are interested, please email partners@greenhouse.io and specify an email address you would like to use in the future.

Product website

Link to your integration product page if you have one.
If not, link to your company website.

Product privacy policy URL

Link to your product-specific privacy policy.

Greenhouse support page URL

Link to your support.greenhouse.com page if you have one.

Do you charge an implementation fee?

If your company charges a fee to integrate with Greenhouse, answer yes.

Integration developer

This could be the name of your company, Greenhouse or a third party.

What company sizes do you support?

This is a range from 1-10,000+.

What regions do you support?

Your answer should include the geographic regions that your integration currently operates in.

What languages do you support?

Choose from this list of languages that your integration supports.

Product logo – greyscale

Upload a greyscale logo as a .png file with a transparent background. If your product logo is different from your company logo, make sure to upload the product-specific one.

Product logo – color

Upload a full color logo as a .png with a transparent background. If your product logo is different from your company logo, make sure to upload the product-specific one.

In-app image

A smaller version of your full color logo.

What category is your integration in?

Please pick one integration category that best fits your integration – this is how users will find your product. If your integration truly falls into two categories, you can select a second category.

Additional integration category

If you select "Assessments" or "Recruitment optimization & analytics" as your main integration category, you will see this form field with additional selection options.

Which Greenhouse products does your integration support?

Select whether your integration supports Greenhouse Recruiting, Greenhouse Onboarding or both.

Does your integration have explicit functionality or reach specific audiences in support of DE&I?

If yes, please explain how your integration supports DE&I for our internal review. This information will not be displayed on our website, but we encourage you to highlight the DE&I benefits in your product overview and features.

Does your integration use AI?

If yes, please explain how your integration uses AI for our internal review. This information will not be displayed on our website, but you can always highlight this in your product overview and features.

Part 2 and 3

Integration overview and details

Please reference the partner content guide if you need more direction on any of these items.

Headline

This should be a brief line that explains how your integration helps Greenhouse users.

Overview (short description)

This should be a brief description explaining what your product does.

Overview (long description)

Here you'll have more room to describe the benefits of your integration.

Featured video

Upload a product video directly into the form. If there is audio please have an .srt (caption) file ready as well.

Main product image (optional)

If you are unable to provide a video file, this image will display.

Integration features

You can submit three to six features. For each feature, you'll need to include a title, description and an optional feature-specific product image and caption.

Additional images

Upload up to four additional images to be displayed on the page. This section is optional if you have already uploaded feature images.

greenhouse
