SiteCompli's challenges

Manager of People Operations Margaret Dwyer runs SiteCompli's entire talent operations as a team of one. With limited resources, SiteCompli needed a solution to streamline and optimize their recruiting game. SiteCompli's super-lean talent team had a major challenge with hiring top quality and specialized candidates in a limited market.

Greenhouse's solutions

SiteCompli has built a culture where everyone is committed to hiring. With Greenhouse, it's easy to get alignment from hiring managers, keep everyone in the loop and collect feedback all in one place.

- Automated alerts and communications help keep track of what needs to happen next and quickly cover potential bottlenecks
- Interview plans allow the team to conduct more structured interviews and provide relevant feedback
- Candidate scorecards focus on the right questions and relevant attributes to assess candidates quickly and objectively

“Greenhouse simplified a lot of the time-consuming admin tasks, as well as helped to expose outstanding tasks, helping to **streamline workflow.**”

Margaret Dwyer
Manager of People Ops
